Dauphin

Being a Member Pays!

DAUPHIN CO-OP IS A DIFFERENT KIND OF BUSINESS

We are owned by our Members. Co-ops provide top quality products and pricing PLUS only Members earn equity on purchases!

Gary St. Goddard, Co-op Member/Owner, recently received a tax-free equity payout of over $5K. Gary believes in the co-operative business model with profits going back to its member/owners and staying in the community.

The very first thing he bought at Co-op was a jack-all and battery charger as he had an older vehicle that he had to work on often. "When I first bought a membership for $10, I never imagined that I would earn over $5,600 just by shopping regularly. You can't get that shopping anywhere else." Gary said that he appreciates that employees remember his name and notice if he has been away.

Gary knows the value of a Co-op membership and what Co-ops mean to a community.

Lorne Eiffert, Dauphin Co-op General Manager presents Gary St. Goddard and his wife Barb with over $5,600 in tax-free equity earned over the years.
