

DAUPHIN CONSUMERS CO-OP

VISION | Enrich the Life of our Communities

DAUPHIN CO-OP SCHOLARSHIP RECIPIENTS

Dauphin Co-op provides the opportunity of earning a \$1,000 scholarship to Team Members or their children that are graduating from high school.

As our community teens head off to begin their post-secondary studies, we wanted share a few quotes from this year's scholarship recipient essays.

As a locally owned and operated Co-op, working together for the greater good is what it is all about. Dauphin Co-op has been the first job for many students over the past 80+ years and it is so heart-warming to learn the value we are providing young people as they follow their path in life.

Tiffany Peters

"Respect, honesty, service and excellence are very important to Co-op. Even before I knew the ins and outs of the Food Store, I knew that the food I was getting was only the best. The people who work for Co-op are some of the kindest, hardest working people I've ever met. I say with confidence that when people buy from Co-op, they are getting the best quality product and help from its workers. Many of my family members have worked at Co-op, including my grandfather, mother and father. I am proud to follow in my parents' footsteps." – Tiffany, Bakery

Jonah Goodine

"I have come to appreciate the value of the Co-op organization to our Dauphin families and to the greater community. I have learned the essential skills of working as a team and the importance of superior customer service. They have also made me feel like a valued member of the team. I have witnessed this treatment among all the employees that work there. As a result, Co-op has a wonderful reputation of taking care of their employees as they show compassion and understanding of the needs of each individual. As a citizen of Dauphin, I have seen the amazing support that Co-op offers our community. They are built by the people and in return, they show their appreciation through ongoing support." – Jonah, Main Street Gas Bar

Parker Boguski

"Dauphin Co-op takes pride in valuing their employees and members in the community by building and cultivating strong relationships. Their values hold a high standard with building these relationships with respect honesty, service and excellence. I take pride and have built on these values each and every shift during my time at Main Street Gas Bar and now at Dauphin Agro Centre. Co-op has given me the opportunity to grow as a young adult and I feel that by being a part of this organization has instilled the importance of hard work, how to value and take pride in my community, respect my fellow co-workers and consumers, and build on my own personal integrity to become a well-rounded individual. I have had the opportunity to be challenged and grow as an employee with various training opportunities. These are skills, certifications and experiences that I will take with me as I move forward in my future endeavours. I will always remember and value my experiences and will never forget the importance of valuing the sense of building a stronger community as I move forward in my life." – Parker, Dauphin Agro Centre
